

ACCEPTED PROPOSALS
YARBROUGH UNDERGRADUATE RESEARCH GRANTS
2019-2020 Academic Year

To Whom It May Concern,

The Yarbrough Undergraduate Research Grant Committee is pleased to announce the accepted Yarbrough Grant Proposals for the 2019-2020 year. Recipients have indicated their acceptance of the grant and are listed below alphabetically by last name.

1. Jeremy Brown for the submission “Efficacy of combined ultrasonic/antibiotic treatment for removal of complex biofilms from medical implant plastics” with faculty advisor Melanie Lee-Brown at Guilford College.
2. Austin Snide for the submission “Eggshell organizing factor 1 protein in *Psorophora Ferox* mosquitos” with faculty advisor Carmony Hartwig at Catawba College.
3. Jeremy Walker for the submission “Development of pedagogical substitution laboratories for organic chemistry” with faculty advisor Sarah Goforth at Campbell University.
4. Jasmine Wiitala for the submission “Investigating the antimicrobial properties of local versus non-local honey on human microbiota” with faculty advisor Steven Coggin at Catawba College.

Sincerely,

Yarbrough Grant Committee
